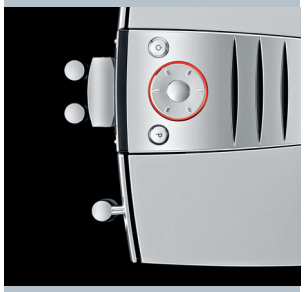
One-Touch Cappuccino/Latte macchiato

3.5" TFT color display



Clear design with elegant finish

Aroma preservation cover with active bean monitoring

PROFESSIONAL

Perfectly designed, right down to the latte macchiato

The IMPRESSA XJ9 Professional cuts an outstanding figure where the quality of the drinks served is just as important as aesthetics in architecture, ambience and design. It creates perfect latte macchiato, cappuccino, café crème, espresso and ristretto at the touch of a button. Meanwhile, the clear and symmetrical design, sophisticated chrome-plated bean container and brilliant silver finish add a touch of charisma.

Technologies

With the One-Touch Cappuccino/Latte macchiato function, you can prepare speciality coffees topped with milk and milk foam at simply the touch of a button. Thanks to the height-adjustable spout, the function can be used with both small designer cups as well as cups or glasses with a height of up to 6 inches. The new fine foam technology creates milk foam with a fine, feather-light consistency. A 3.5 inch TFT colour display is the key to the machine's intuitive operating concept. Thanks to clear, visual user guidance, choosing specialities is incredibly simple. Ten specialities can be individually programmed.

The IMPRESSA XJ9 Professional also delivers outstanding performance with its sophisticated eco-intelligence concept. Offering an intelligent Energy Save Mode and a Zero-Energy Switch, it actively helps you to save precious energy.

Cleaning/Hygiene

As well as being easy to operate and program, the machine is designed to be very easy to care for. The integrated rinsing, cleaning and descaling programs reduce the effort involved to a minimum and guarantee TÜV-certified hygiene.

Customization

With a wide selection of accessories including a cup warmer, milk cooler, coffee grounds disposal function set, drip drain set and an attractive range of storage and presentation units, it is possible to create a complete coffee solution tailored to your specific requirements.
